## Opening of a PCR test reservation website for foreign residents in Japan

Inbound Platform Corp. (Headquarters: Tokyo, CEO: Shin O), a company that develops various services related to tourism in Japan (consulting, media, chat concierge, Wi-Fi rental, RV rental, currency exchange) with the vision of "I want to visit Japan, again", is pleased to announce that we have opened a COVID-19 PCR test reservation website for foreign residents in Japan that can be used in English, Chinese, Korean, Vietnamese, French or Spanish on November 30th, 2020.

The screenshot shows the clinicnearme website interface. At the top, there is a navigation bar with the logo 'clinic nearme', a 'Contact us' button with the phone number '03-6264-3639', a 'Booking form' button, and a language selector set to 'English'. The main content area features a large green banner with the text 'Need a PCR test in Japan? Leave it to us!'. Below this banner is a list of service features: 'Same day test available', 'Next day negative certificate issuance', 'Reception until 19:00', '3 minutes' walk from nearest Station.', and 'Payment by credit card / bank transfer / cash'. To the right of the banner, there are two callout boxes: one stating 'Available in English We can help you in any situation.' and another stating 'Over 50 Countries We have issued valid negative certificates.'

PCR test reservation website for foreign residents in Japan

### ■ Outline of this initiative

There are approximately 2.93 million foreign residents in Japan <sup>\*1</sup>. Of these, 60% feel uneasy when using Japanese medical institutions, especially regarding communication issues such as "cannot understand some of the vocabulary", or "cannot explain properly the symptoms". <sup>\*2</sup>.

### For inquiries

We are aware that for foreigners currently residing in Japan, it may be difficult to receive a PCR test due to language problems, complicated and lengthy procedures, etc. As a result, we have opened a website where you can easily book for a PCR medical examination (not covered by insurance) in English, Chinese, Korean, Vietnamese, French and Spanish.

- The consultation time is from 11:00 to 19:00 on weekdays. Same day examination is possible for reservations made by 12:00.
- A negative certificate will be issued on the next day of the test.
- Affiliated Clinic: T Care Clinic (2F, 2-13-9 Hamamatsucho, Minato-ku, Tokyo 3 minutes walk from JR Hamamatsucho Station)
- The price of the PCR test is 20,000 yen (Tax excluded).
- The test method is saliva or nasopharyngeal swab. They can be done in about 10 minutes.
